

## Media Resource Centre (AV Auditorium)

This Auditorium provides space for the accommodation of 80 people and state-of-the-art audio-visual equipment it promises to make events unforgettable.

Fully Air-Conditioned, with a raked floor and high tech seating capacity of 80, the Auditorium is designed as a multi-purpose theatre. It is ideal for plenary conference sessions and lectures, but can also be used for films and stage performances. It is fitted with a wide range of AV equipment including projector and a Base Sound system, an experienced AV Technician is also always on hand. It has a large stage.

The theater has built-in sound system; one wireless phone and basic stage lighting are included.

# Auditorium Foyer

Suitable for delegate registration and controlled access to the Auditorium.
