An OPAC (Online Public Access Catalog) is an online bibliography of a library collection that is available to the users. OPACs developed as stand-alone online catalogs. Libraries have made their OPAC accessible from a server to users all over the world.

You can search the documents by entering author, title or keyword in the query line.

**Services**

- Check availability of Library document
- Check status & location of library document
- Reserve checked-out document
- Check availability of subscribed journals status
